

**What If Insurance Claims
Took 2 Minutes?**

Decentralized Claim

**Solving the Insurance "Black
Box" Problem with AI Agents &
Blockchain.**

Rajas Deshpande

Github

BROKEN CLAIM INSURANCE SYSTEM

- ✗ Manual claim reviews take weeks
- ✗ Fraud costs insurers \$40B+ annually
- ✗ Decisions happen inside a black box

Autonomous Claim Processing

DecentralizedClaim uses a **Multi-Agent AI** system to verify claims automatically.

4 AI agents collaborate to:

📄 Validate documents
(OCR + NLP)

DOCUMENT AGENT

VISION AGENT

🔍 Analyze damage
photos (Computer
Vision)

🕵️ Detect fraud using
real-world APIs

FRAUD AGENT

SETTLEMENT AGENT

💰 Calculate payout
instantly

No More “Black Box” Decisions

Every AI decision is:

**ANCHORED ON POLYGON
BLOCKCHAIN**

CRYPTOGRAPHICALLY HASHED

IMMUTABLE + VERIFIABLE

Meaning:-

✓ Zero post-decision manipulation

✓ Transparent claim processing

✓ Traceable Decision Pathways

Built With Modern AI + Web3 Stack

⚡ <2 MIN CLAIM SETTLEMENT

🎤 VOICE-FIRST CLAIM FILING

🔍 REAL-TIME AI REASONING UI
